Care and Storage

megasorber®

Megasorber T

care and storage

Megasorber T range tapes, unless otherwise stated on the product Technical Data Sheet, have a warranted shelf life of one year from the date of shipment. This warranty only applies to products that are stored in their original cartons at no greater than 24°C (75°F) and no greater than 50% relative humidity.

Megasorber has extended the shelf life beyond the one year in specific instances pending the results of certification testing in the Megasorber quality assurance laboratories.

Warranty

Megasorber makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose.

Due to the infinite number of variables in application conditions, materials, and product requirements that are uniquely within the user's knowledge and control, the user is responsible to determine if the Megasorber product is suitable for the end use or method of application.

Our only obligation will be to replace any portion proven defective, or at our option, refund the purchase price thereof. The user assumes all other risk, if any, including injury, loss or damage, direct or consequential, arising out of the use, misuse, or the inability to use this product.

This warranty is in lieu of the warranties of merchantability, fitness for purpose, and all other warranties, expressed or implied. No deviation is authorised. E&OE

If you have any further questions or need any additional information, please refer to the product Technical Data Sheet, or contact the Megasorber team at any time.
